 Joint Terminal Attack Controllers (JTACs)

## Army and Air National Guard

Brigade Combat Teams (BCT)  
 Combat Aviation Brigades (CAB)  
 Engineer Battalions  
 Military Police (MP)

## Noteworthy History

US Marine Corps' Sole Approved Eye Protection since 2004 - With over half a million sets of eye protection fielded to the USMC in 4 years, ESS ICE spectacles and Profile NVG goggle remain the standard issue eyewear for Marines.

US Army Issue - ESS manufactures five eyewear models on the US Army's Authorized Protective Eyewear List (APEL). The ESS Profile NVG goggle and ICE spectacle are among the most widely-used eyewear systems in the US Army.

US Navy Authorization - The ESS Flight Deck goggle is the only commercial goggle authorized for flight deck use by the US Navy since 2001.

US Air Force Rx Preference - ESS' prescription lens carrier (PLC) system has been identified as "the preferred system" by the US Air Force due to its value and the interoperability of this PLC in the ESS Profile NVG goggle and ICE eyeshield.

US National Guard - ESS is a leading provider of eye protection to the Army and Air National Guard.
