! Instructions before use

- bilux products are used by professionals. If you are not confident in your ability to use them as directed, please do not use them.
- Improper treatments may cause serious problems with your skin. Therefore, please read, follow, and understand our instructions carefully before using our products.
- bilux does not take any responsibility for any problems caused by improper use of our products during treatments.
- If you plan to offer treatments to the public, you must be registered at a public health center.
Moreover, you must hold a proper license for any treatment.

How to Use

- Store at room temperature between 20-25 degrees and humidity between 50-60 percent 
- Before applying clean your eyelashes the areas around your eyes carefully. 
- Remove the product from the Lamizip. 
- Shake the product more than 120 times for one minute. 
- Snap the cap five times with your finger and put the container on the board for 10 seconds. 
- Remove the glue's cap and put it on a clean board 
- Point the container down and squeeze the container between your fingers, until a drop of glue drops into the tray. 
- Clean the whole of the container with dry clean tissue. 
- Clean the glue out of the nozzle by hitting the bottom of the container against the board five times. 
- Clean the bottom of the cap with clean dry tissue, and close the cap. 
- Locate it on the board without laying it down. 
- Use a disinfected tweezers to pick up extensions and apply the glue to one third of the hair from its tip. 
- Attach the extensions; keeping 1.5mm from the hair base. 
- After you finish, return the glue to the Lamizip without laying the glue down and store it in a cool, dark place without humidity. 

Advice of Use

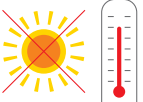

- Shake the glue well; if the liquid's circle is transparent, shake it again.  @To keep staying power @Avoid permeation
- The above treatment is different from the professional's, so use only the brand by the self-treatment.  @To keep staying power @Avoid permeation
- Keeping 1.5mm from the hair base when you attach it.  Extension Glue Own eyelashes 1.5mm or more @To avoid permeation
- While processing the above treatment, do not open your eyes. Be careful not to open eyes accidentally.  @To avoid permeation
- Follow the amount of the glue: make a small size drop at the hair base  @To keep staying power @Avoid permeation
- Drop the glue into a proper tray often: in winter drop every 15 minutes, in summer drop every 8-10 minutes.  @To keep staying power

Expiration Date

After opening, use within 60 days. Before opening, use within 90 days.

- *The above dates could change depending on your way of treatment. If you have any problems or see any abnormalities with the liquid, we recommend that you replace it with a new one.
- *We do not recommend that you add new products to your existing products. Buy the amount you need the first time.
- *Do not use old glue. If your glue is more than 60 days old, we recommend that you replace it with new glue.

How to Preserve

- Keep the product in a cool dark place (20-25 degrees with no humidity); do not expose it to direct sunshine and locate it in a place with high humidity. 
- Do not store in the refrigerator. 
- Clean the glue on the bottom of the cap or the whole container with clean dry tissue.
