**For someone who wants to thicken your eyelashes and eyebrows**

It contains 8 different types of amid acids, 21 plant extracts, and GF all of which help the growth of your eyelashes. It works for the hair which recently declines and fixes it in a proper way.

**The coating effect sustains the durability of your extensions.**

The refined coating repairs damage caused by ultraviolet rays and dryness. If you regularly apply it to your extensions, you can have solid and fine eyelashes and eyebrows.
