

# Ken Oliver Crafts Watercolor Florals

Watercolor Florals are elegant, timeless and are perfect for many types of scrapbook layouts. In this collection you'll find Poppies, Tulips, Tiger Lilies, Freesia, Asters and Apple Blossoms all in that free, fluid watercolor style. Each 12x12 sheet is double sided and has 2 distinct looks. One side is brilliantly colored and bold, while the reverse side is muted and pastel. If you love that watercolor look in your layouts, but don't want the water or brushes...we've created the look for you. Perfect for layouts, cards and mixed media projects.

# Ken Oliver Crafts Color Burst Splash

You love the look of watercolor layouts and backgrounds, but maybe you don't have the time to create the background yourself. We've taken the guess work out of it for you. Use Color Burst Splash papers to create beautiful, crisp watercolor looks without the water! It's easy and you get that fabulous mixed media, watercolor look in half the time. We offer two colorways, one side that's a splash of color and another side of swirling colors. Both sides are gorgeous!

An amazing powder watercolor medium that lets you create beautiful watercolor techniques like you've never created before. It's great for watercolor painting, fine art and mixed media. Color Burst will let you create watercolor backgrounds like an expert. It's as easy as "sprinkle and spritz". With a few simple techniques, you can create wax resist, stenciled and splattered looks. The results are stunning and the options are endless with Color Burst.

# Color Burst Liquid Metals

by Ken Oliver

Color Burst Liquid Metals will add metallic luster to all your Color Burst artwork. Designed for use with Color Burst, Liquid Metals is a suspension of finely granulated metallic powder along with colorant in a dispersing liquid in a handy dropper bottle. When blended with Color Burst and water, Liquid Metals will make your Color Burst artwork shine. We offer 2 assortments, Heavy Metals and Precious Alloys that include metallic finishes like Platinum, Pewter, Yellow Gold, Copper, Verdi Gris, Iron Oxide, Metallic Saffron, Metallic Mandarin, Metallic Rose, Metallic Sky, Metallic Jade and Metallic Amethyst. Your art will glow with shimmering metallic highlights.

Use for cardmaking, scrapbooking, stamping, watercolor painting and mixed media art projects. Color Burst Liquid Metals are specially designed to work with Color Burst. It's water based, nontoxic, and cleans up easily with soap and water.

# Water Media Papers

I am really excited to announce that I am partnering with Canvas Corp. to bring more new and innovative products to you! Over the past year, I've literally tested and tried 100's of paper samples from around the world. I wanted to bring you the perfect paper for using Color Burst, watercolor and all wet media! When I sampled this paper, the search was over. This paper is ultra-white and ultra-bright...colors nearly jump off the page. It's heavy weight, double sided, there's a smooth side for stamping techniques and a textured side for watercolor techniques. And, I wanted to bring you a variety of sizes and extra items like folded watercolor cards with envelopes, stitched cards, ATCs, tags and pennants. Your customers will love the weight and quality of this paper.

## Cut'n Color

I am so excited about Cut'n Color dies and coordinating stamp sets. We've designed them with versatility in mind. We all know that coloring is probably the biggest trend of the last couple years. Cut'n Color lets you "color" stamped images, then cut them out with matching die sets. The designs owe their inspiration to mandalas and can be used for a wide variety of projects that include card making, party décor, DIY home décor, mixed media art, and art journaling. And, you can use the die and stamp sets together or separately to create the exact look you want. Your customers will swoon when they see Color'n Cut dies and stamps at your store.

Stick It has been specially formulated for intricate die-cutting and electronic cutting machine applications and will remain repositionable for a period, becoming permanent over time.

It's paper thin and easy to use. When applied to your cardstock or paper prior to die-cutting, Stick It adheres a uniform layer of adhesive to your intricate die cut shapes more easily than ever before. Stick It was developed in partnership with the incredibly talented US based craft designer and personality Ken Oliver.
