

Product Specification

Super Electrolyzed Water Clean Shu!Shu!

Product name	Super Electrolyzed water Clean Shu!Shu!	All ingredient	Pure water (RO water)
Price without tax	¥980		-
Volume	500ml	Material of bottle	-
JAN	4522994000515		Bottle : PE
Packaging	Gun spray container		Spray : PET
Case	15bottles/case		Shrink : PP
Size	100×65×220 (width×depth×height mm)		Cardboard : OFK
Weight	560 g		-
Size of case	330×320×240 (width×depth×height mm)		-
Weight of case	8.5kg	Laws & Regulations	Not applicable
Quality assurance	5 years from the date of manufacture	SDS	-
Country of origin	Japan	Product front	Have
Manufacturer	Chemicoat Co.,Ltd.	Product back	Display product name and design
Address	No.4-15-10, Kitasakae, Urayasu city, Chiba, Japan	Manufacturing lot	Display ingredients, uses, precautions, contact information
TEL	0475-86-6511	Liquid	Printed on the bottom
FAX	0475-50-7788	Ingredient	Alkalinity
-	-		Alkaline ion water 100%

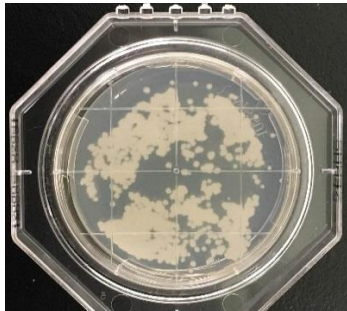

Summary of Product

Made from water through the process of electrolysis in diaphragm electrolytic cell “100% Alkaline ion water Cleaning & Disinfection product”

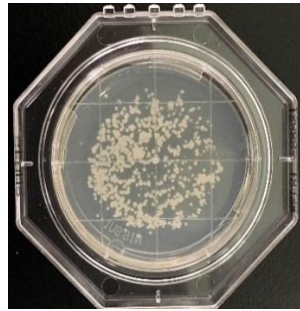

- ① This product is made from 100% alkaline ion water, so no need to wipe twice. the remaining liquid will be vaporized as water, not harmful to environment.
- ② Great penetration power, penetrates into stain parts and remove them out of surface
- ③ Not only for Cleaning, it is used for Disinfection & Deodorant at the same time

Disinfection test results

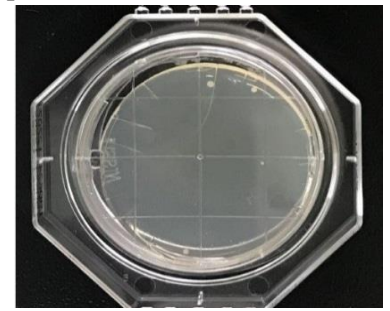

State of general live bacteria cultured with food stamp

Before cleaning

Tap water

Super electrolyzed
water Clean Shu!Shu!

Excellent disinfecting power and can disinfect O-157 and Salmonella in 30 seconds.

Product features

- ① Super Electrolyzed water Clean Shu!Shu! is manufactured from 100% RO water, without mixing alkaline chemicals, pH 12.5
- ② It is manufactured by our own patent system with three chambers, eliminates residual chlorine, that is why our product does not rust the equipment. Moreover, it has excellent stability with 5 years long-term warranty for unopened bottle.
- ③ Excellent disinfecting power, can disinfect the general live bacteria in 30 seconds to 1 minute.
- ④ NO contain synthetic surfactants, harmless to humans and friendly to the environment.
- ⑤ NO contain alcohol, so it safe to use near a fire or fire sources.
