Exact  
fit

Front and back side stick together anywhere!  
Hi-Tech Fabric Easy Wrapper

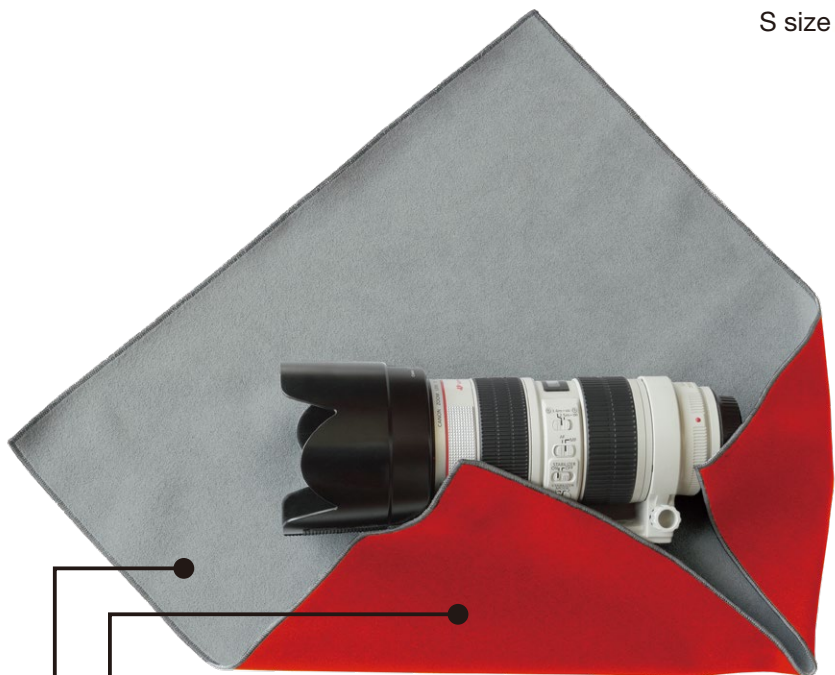

Exact  
fit

S size

**Outer fabric and back fabric stick together.**

EASY WRAPPER® is a wrapping cloth for the new era, which protects the contents without tapes, buttons, zippers etc.

Outer fabric  
back fabric    stick together

Exact  
fit

**[How to use]**  
All you have to do is wrap the item that you don't want damaged with EASY WRAPPER®.  
Then outer fabric and back fabric stick together to protect your item.  
EASY WRAPPER® doesn't unwrap when carrying in your hand or bag but you can unwrap it by hand very easily and take your items out.

#### [S / M size]

EASY WRAPPER® is the best wrap to protect delicate items such as watches, key holders, accessories, mirrorless camera, camera lens, tripod stand accessories, tablets and so on.

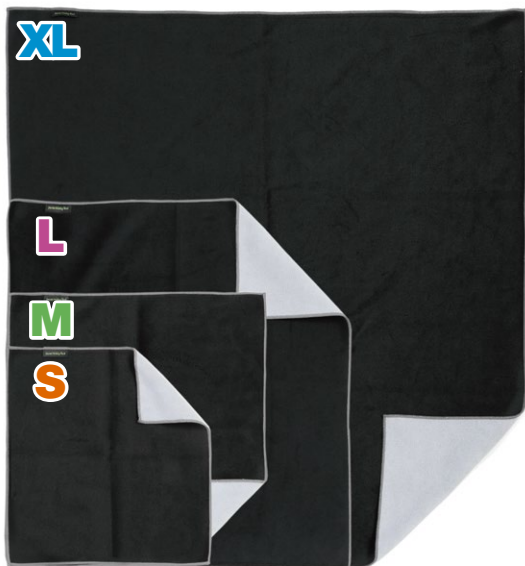

#### [L / XL size]

EASY WRAPPER® is the best wrap to protect large delicate item such as single-lens reflex camera, large camera lens, tripod stands and so on. Even heavy items remain unexposed.

#### [More Usage Example]

EASY WRAPPER® on camera when shooting outdoors. It protects your camera from strong sun light or dust.

**EASY WRAPPER® doesn't unwrap when carrying in your hand or bag but you can unwrap it by hand very easily and take your items out.**

# EASY WRAPPER® BANDAGE

## Special hook and loop fastener

Wrap  
it!

Green camo

4580400633023

Tree camo

4580400633030

Black lining side  
(Reversible)

[Size] 5 cm wide x 2 m long

[Materials] Polyester 97% / Spandex 3%

[Country of Origin] Taiwan

For camouflaging a camera

For tying up appliance cords

For a sleeve

## The lining material attaches firmly onto its outer material.

As it attaches just by wrapping it around, you can easily put it on by yourself.

It can be cut to any length you want and is repeatedly reusable.

It is not sticky, so it does not damage your skin or your clothes.

### Difference between traditional hook and loop fasteners and the **EASY WRAPPER® Bandage**

The fineness of the fibers on the hook side and the loop side of this [Special Hook and Loop Fastener for a Sleeve] is 1/200th and 1/100th of conventional ones, respectively. When each single fiber hook catches even a single loop slightly, the adhesive power generated by the countless numbers of fibers caught to each other is very strong.

	Hook and loop fasteners	<b>EASY WRAPPER®</b>	Comparison values
Hook (denier)	325 D	<b>3.12 D</b>	1/100
Loop (denier)	20 D	<b>0.09 D</b>	1/200

Wrap  
it!

# Silicon Camera cases

The easyCover camera case protects your camera while it is fully functional. It protects against bumps, scratches, sand and dust.

High quality  
silicone material

The camera keeps  
its slim design

Offers a smooth texture  
and secure grip

The easyCover camera cases are custom-manufactured per model resulting in a perfect fit for your camera.

Because of the high quality silicone material the camera keeps its slim design and offers a smooth texture and secure grip.

## Some common problems encountered when using your camera.

You had to adjust the neck strap because the buckle scratched your camera. While traveling on a ship, you bumped your camera against another person's camera. When you saw cute cats, you were about to sit down to snap a picture but your camera fell on hard concrete. When you shot a lively scene during a motocross event, your camera got covered in grit and dust and it took 2 hours to clean it.

You have had to replace your camera many times over due to quick wear and tear.

You want to sell your camera at a higher price. and the situations above are just a few.

**Examples....Once you have tried the skin for three months, you will be able to appreciate its benefits on the condition of your camera.**

\*Perfect fit, reliable shield  
\*Keeps your camera functional  
\*Suitable for all lenses  
\*High quality material

\*Shock & scratchproof  
\*Splashproof  
\*Can be washed  
\*Screenprotection

\*Battery access  
\*Extra grip  
\*All sensor accessible  
\*Memory card access

# LENS RIM

Designed to protect your lens while using it.  
Functional in all situations,  
whether it is an intensive hiking experience,  
a studio shoot or at home photography:  
your lens will be protected against bumps and scratches.  
Included are a lens Ring and a Lens Bumper.

lens Ring

Lens Bumper

Since the bumper will be screwed in via the thread,  
the bumper is not compatible with the supplied lens  
shades from the manufacturer.

The Lens Bumper is specifically manufactured per diameter  
size: 52mm, 58mm, 62mm, 67mm, 72mm and 77mm.  
Available in black / red / yellow / camouflage

### How to apply

1. It is advisable to clean your camera using 99.5% pure ethanol before application.
2. Left side : Apply on your camera along the edge of the Lens mount.
3. Right side : Apply on your camera along the Lens mount and Logo.
4. It is advisable to warm the leather sticker lightly with a drier for better adherence.  
It is easy to remove without leaving any residue because it uses a high-quality double-sided tape.

The Secret to Carrying  
Your Heavy Bag  
Effortlessly.....

# AIRCELL

## CAMERA BAG PAD REGULAR/MINI Revolutionary New Ergonomic Design

Air works ideally to absorb physical impact.  
By trapping air with specialized materials  
that offer flexibility and cushion,  
AIRCELL delivers optimum comfort.  
AIRCELL is a new technology  
which can be applied in various environments.

Each cell is completely separate from adjoining cells,  
ensuring each AIRCELL remains fully functional in case a single cell is punctured.

Weight : 63g / 0.1 lb.  
Size : 240/70mm / 9.4/2.7 in. Open Size : 240/195mm / 9.4/7.6 in.  
(Neoprene Size : 240/60mm / 9.4/2.3 in. Open Size : 240/165mm / 9.4/6.4 in.)

How to use

# Camouflage Storage Stool

A convenient, collapsible storage box.

When not in use, the box can be folded for compact storage, saving space in your room or car.

Use as a space-saving storage box or table, which makes it very convenient for use inside the separately sold **Camouflage Tent II**.

Box Size : 30 x 30 x 30 cm / 11.8 x 11.8 x 11.8 in.

Folding Size : 30 x 30 x 6 cm / 11.8 x 11.8 x 2.36 in.

Weight : 1.5 kg / 3.3 lb. Material : MDF / Polyester (100%)

JAN : 4580400630213

The box only takes seconds to set up. Expand the box and insert the bottom insole, place the cover on top, and it is done. Please use it on flat ground.

The box is made of high-quality MDF boards, and the cover is made from memory foam coated in polyester, making the seat elastic and soft to ensure comfort.

When not in use, the box can be folded up for compact storage, saving space in your room or car. Refer to the YouTube video for instructions on how to use the box.

# SAFARI Neck strap

**SAFARI enables you to carry heavy telephoto lenses or binoculars over a long period of time without suffering from neck strain.**

SAFARI designed to relieve your neck strain is the most comfortable system for outdoor photography and enables you to carry heavy telephoto lenses or binoculars over a long period of time without suffering from neck strain. Its exclusive concept distributes the weight on the back and the shoulders (as for a back pack) and thus allows a very great freedom of movement and advantageously replaces the need for other straps and shoulder-belts.

Made in China  
Color : Black

**Classic**

**Sports**

**Twin-kit**

Twin kit : This optional accessory is made for photographers who want to carry two SLR and a cross strap system sliding in a ring. So that the two cameras do not hit or roll.

All the buckles (of the Safari classic and the twin kit) are compatible.

# Camera & Watch back case opener Made in Japan

Adjustable between 12mm / 0.4in. and 60mm / 2.3in  
Change Camera opener to Watch back case opener !

## Contents

2.8	0.40	60 / 80
3.0	0.40	*40 / 60 / 80
4.0	0.60	40 / 60 / *80

\*MOQ : 1 pic(the other size : 10 pic)

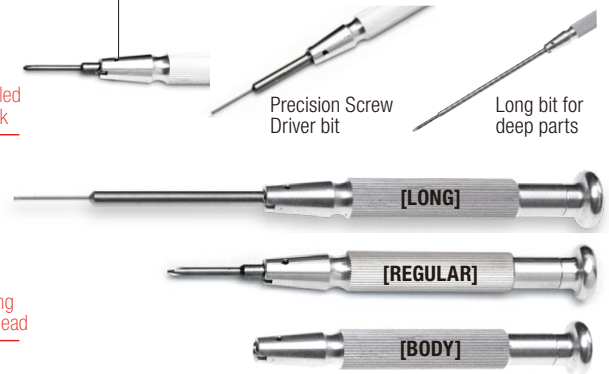

Rolling big head !

Knurled and thick shank

High quality and Reliable Driver bit made in Japan

\* If the driver bit chipped off, you can change with the attached hexagon wrench (0.87 mm)

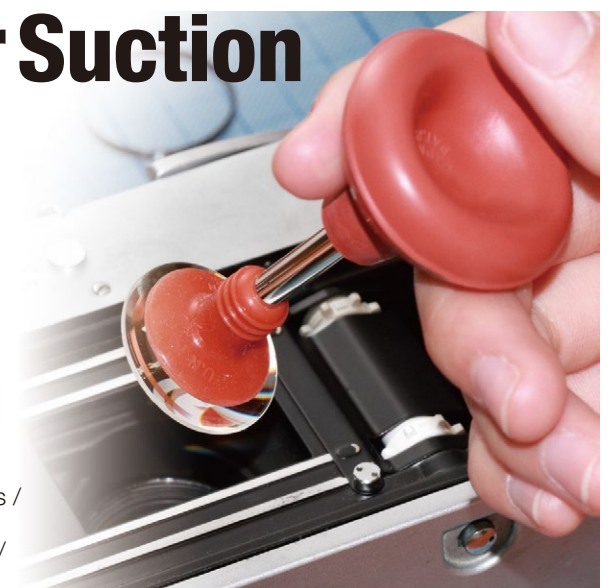

# Camera Lens Super Suction combinations made in Japan

Use the two different lengths of pipes effectively to adapt to the parts which need manipulating.

Contents  
2pcs. of suction pipe caps /  
2pcs. of pipes  
Materials: Special rubber /  
Stainless-steel

Applying CLSS to vacuum seal camera lens enables you to manipulate the lens without using your fingers so that the lenses remains very clean. It is also very effective to remove lenses that are located deep in the back of your camera.

Combine CLSS components for assembly or repair of lenses and optical elements. Easily done with our vacuum Super Suction. Specially designed CLSS leaves no stain, grease, or smudges on the surface of your lens. Please be advised, before using CLSS that the surface should be cleaned using liquid ether.

# Super Lens Filter Wrench

Contains 2 Pieces

**Excellent performance for removing polarizing filter without damaging thin lens filter as the tool is rubberized steel!**

**How to use** Grip only lens filter with the tool then turn counterclockwise. When the filter is loosened, then use hand to remove.

<b>L</b> Size Pair	Filter Size	67 to 72 mm / 2.6 to 2.8 in. 77 to 82 mm / 3 to 3.2 in.
<b>S</b> Size Pair	Filter Size	48 to 55 mm / 1.9 to 2.2 in. 58 to 62 mm / 2.3 to 2.4 in.
<b>XS</b> Size Pair	Filter Size	31 to 37 mm / 1.2 to 1.4 in. 42 to 46 mm / 1.6 to 1.8 in.

**Blue LED Illuminates Scratches or Distortions Clearly !**

**Blue LED Illuminates Scratches or Distortions Clearly ! To Detect Scratches and Distortions on Camera**

# Blue LED Light

When sensor cleaning, tiny pieces of dirt are clearly seen by this item.

Size :  
10.5 mm (11.5 mm when the head part is in the extended position) x 36 mm  
0.41 in. (0.45 in. when the head part is in the extended position) x 1.4 in.  
100 g / 0.2 lb. 3 AAA batteries are required. (Batteries not included)

Push the button to turn on.  
Press the button halfway to switch the LED color.  
Extend the head part to focus the light flux.

# Camera Light Seal Foam

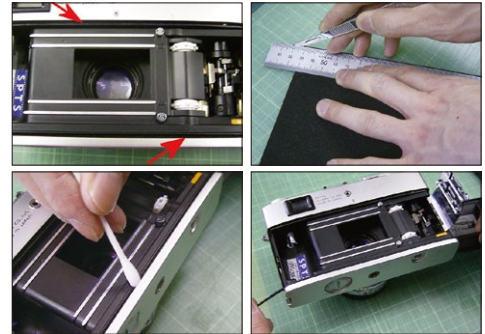

Camera Light Seal Foam is also called a Light Seal and it is located inside the back cover of camera. It is to prevent from light leaks.

Size: 125 × 250 mm / 4.9 x 9.8 in

5 different degrees of thickness

1 / 1.5 / 2 / 2.5 / 3 mm  
0.03 / 0.05 / 0.07 / 0.09 / 0.1 in.

**How to use Camera Light Seal Foam**

Firstly, thoroughly remove the old light seals.

Secondly, cut thinly with cutter

Finally, peel paper on the back and stick with the double faced tape.

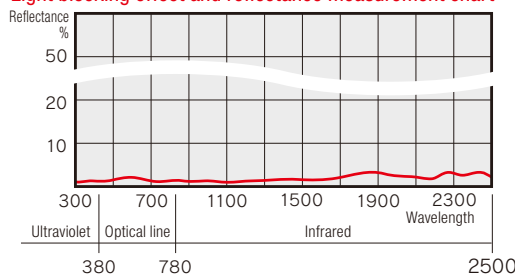

# Light Trap Material Flocking

Light Trap Material Flocking is same material that major camera makers adopt for the high performance of shutting inner reflection.

This product performs highly optical absorption and eliminates reflection because of the conformation with elongated cells.

Light blocking effect and reflectance measurement chart

## USE

Eliminates inner reflection in cameras, such as mirror boxes

Eliminates inner reflection in lens mirror barrel

Eliminates inner reflection in copier

Eliminates inner reflection and light shielding for other items

Double adhesive backing tape makes it very easy to stick after cutting.

Thickness: 0.4 mm / 0.01 in.

Size: 220 x 250 mm / 8.6 x 9.8 in.

Material: Special polyurethane / Adhesive backing: double tape

# Shutter curtain for Focal Shutter

**High Quality Shutter Curtain : 14 Momme Habutae silk used by major Japanese camera companies.**

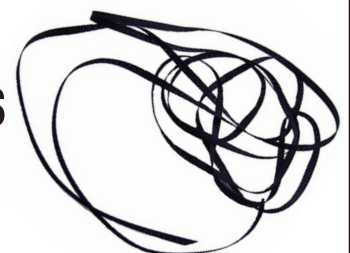

Size: 220×300mm / 8.6 x 11.8 in. Thickness: 0.2mm / 0.007 in.

Material  
**100% Silk**

## Shutter Ribbons

Length : 1m / 39.37 in.  
Width : 2mm / 0.07 in.  
2.5mm / 0.09 in.  
3.0mm / 0.11 in

High Lubricating performance!

Very High lubricating performance and heat /cold resistance!

## Camera Tripod Screw Taps

**Taps for Screw Threads  
for Camera Tripod Connections**

**made in Japan** Material : High Speed Steel

1/4-20 Hand Tap

3/8-16 Hand tap

1/4-20 Spiral tap

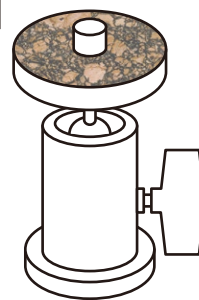

# Protection Cork for Camera Tripod Head

Most effective protection for camera on  
both camera tripod head and  
the bottom of vintage cameras

Size : 150 mm x 100mm / 5.9 in. x 3.9 in.  
1.2 mm thick / 0.047 in. thick  
Comes with double-face adhesive tape.  
(Nitto made in Japan)  
\*The pattern differs on each item.

# Camera maintenance liquid dispenser for minute amounts of liquid such as alcohol and benzine

[How to Use]  
Remove top and pour liquid such as alcohol into the jar.  
Tightly close the top. Press the top button plate to  
extract the desired amount of liquid.  
Use cotton-tipped stick to absorb liquid from the jar.

Liquid capacity: 150 ml  $\varnothing$ : 80 mm / 3.1 in. Height 100 mm / 3.9 in.

# Synthetic Lubricating Oil LAUNA#40 for sensitive equipment such as Camera and Watches

Oil number represents degrees of viscosity from low to high.  
High performance for cold temperature resistance, rust proof,  
and corrosion resistance.

Volume: 20g / 1.6 fl. oz

Note: Scan QR code and check MSDS before using LAUNA40

# Chamois skin Effective for Cleaning Cameras

Made from the skin of wild deer.  
Removes dust and cleans objects without scratching.  
Long-lasting cleaning ability  
With washable silicon processing

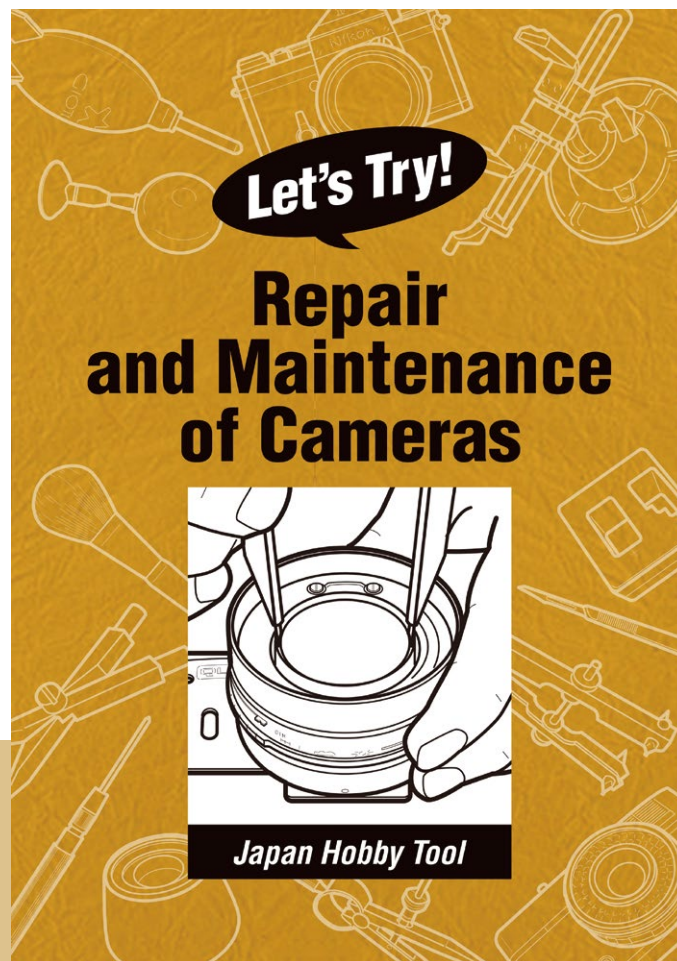

For camera (except for lens), jewelry, glasses,  
watches, art object, etc.

SIZE : 150x150 mm / 5.9 in. x 5.9 in.

**Silicon Processing Made in Japan**

# Japan Hobby Tool **BOOK**

**"Let's Try! - Repair and Maintenance of Cameras" a manual for repairing and maintaining mechanical cameras and lenses, is now available as an Amazon eBook.**

For camera enthusiasts, the time they spend savouring the feel of the camera in their hands from time to time is an enjoyable and fulfilling time, but it can be disappointing if they find mould on the lens or deterioration of the light-shielding sponge. Why not take the plunge and try repairing it? This book provides easy-to-follow explanations of the key points of repairing metal-mechanical cameras that can be disassembled and reassembled, as well as the necessary tools.
