MTN CULTURE CO.

FW26/27

CONTENTS

WHO WE ARE
RMU is an employee-owned company that practices sustainable innovation while maximizing opportunities for outdoor endeavors through creation of thoughtful, inventive and authentic adventure products.

WHAT WE DO
We are skiers and mountain bikers that embrace the culture of living in the mountains. The RMU Lifestyle was created from adventures and experiences that lead to unique designs and products born from the journey. We build to exceed our own expectations, and stand by our quality.

FW 25/26 DESIGN INSPIRATION
Read about our FW 25/26 SKI line inspiration from this years artist SKye Walker.

PRODUCTS
We've been working on some new products for year-round adventures. Take a look at the latest and greatest for Skiing, Mountain Biking and all outdoor products.

PRODUCT OVERVIEW

CORE VALUES

OUR MISSION IS TO POSITIVELY IMPACT MOUNTAIN CULTURE AND OUR COMMUNITIES

WE ARE SKIERS
WE ARE MOUNTAIN BIKERS
WE ARE A MOUNTAIN CULTURE COMPANY

RMU Started out in humble beginings with a group of friends wanting to learn more about the process of bulding skis. In 2007 we began researching the process of ski development with the same passion that we had previously brought to the table with researching new lines to ski, snow conditions, and weather patterns.

We'd love to tell you that our skis were amazing from the first pair off the press, but this couldn't be farther from the truth. We were not even able to ski on the first pair we ever pressed! The flex was off, the shape was asymmetrical, and we didn't have enough fiberglass in the ski to retain the bindings. Finally a challenge we were looking for which gave us a starting point! We picked up some old wood charts, reworked our flex patterns, and built another pair that was actually ski-able this time, or at least it looked like it would ski. This ski had the right amount of binding retention and it even looked like a real ski, minus the wooden sidewalls and cloth graphics. After a week of ski testing this version we were eager to try again and refine our process even better making improvements to the next pair. As long time locals in Summit County it was only a matter of time before word got out and all of our friends wanted to try our ridiculous skis. 15 pairs of skis later we received our first real inquiry about a ski purchase, "Hey, I have been looking for someone to make me a pair of 176 underfoot pure powder sticks and I heard you guys had a press down in your basement."

Not understanding at the time what we were embarking on, we offered to build the pair for 30 beers and the cost of materials. Before we knew it, we had built about 50 pairs of what were slowly starting to become decent skis for friends at a cost of 30 beers to a couple hundred bucks. The word was out in town and if you needed something built go see the Rocky Mountain Guys! The name was given to us because we were pressing skis underground in the Rocky Mountains, not because we has some well thought out business plan and branding.

As of today, RMU employs Over 100 staff and has implemented an employee ownership program, used our skis to donate and raise funds for several nonprofits, and continue to maintain a "50+ days on snow" policy as a job requirement for our employees. We are faced with new challenges every day, and as we take steps towards the future of RMU and towards creating the brand we are setting out to build, our goal is to build a business in which our entire staff is afforded the opportunity to live comfortably, ski, and pursue the lifestyle that has connected us all. If we can continue to shape our company this way and adhere to the values we are built on while maintaining a reputation of innovation and providing value for our customers, we are fulfilling our goals.

CARBON NEUTRAL

RMU is more than just a mountain culture company, we have a shared vision and passion for the environment and the mountains we love so dearly. We want to create a shared legacy where we protect and nurture the natural environment for many years to come.

With this in mind, RMU created a 'Carbon Neutral 2025' pledge to our customer base and all our stakeholders. We ratified this pledge with a signed document outlining the climate goals we will strive to meet over the next 5 years. We aim to be totally carbon neutral come 2025, if not sooner.

Carbon Neutral | Our ski factory has concluded that our skis, through physical materials and manufacturing processes reliant on renewable energy, produce 30.6Kg of CO_2 per pair with mixed electricity usage, 28.8Kg when 100% renewable sourced. We are also aiming to reduce plastic materials in shipments & packaging and research into Biobased resins.

WE'VE SPLIT OUT OUR CARBON NEUTRAL OBJECTIVES INTO 4 MAIN FOCUS AREAS:

1. Carbon Neutrality
2. Plastic Free/Zero Waste
3. Locally Sourced
4. Employee/Stakeholder Initiatives

RECYCLED MATERIALS

We are proud to offer a 95% recycled line of equipment for mountain biking and skiing. By utilizing recycled fabrics, we are up cycling waste into new products. The liner fabric is a recycled 200D Nylon, and the face fabric is a recycled 420D Nylon... Recycled nylon webbing and even a smaller hang tag, help reduce our carbon footprint producing these packs.

VALHALLA 97

UNISEX ALL MOUNTAIN SKI FOR BEGINNER TO INTERMEDIATE SKIER

"THE VALHALLA IS SO POPPY, PLAYFUL, WHIPPY, TURNY, SPINNY, BUTTERY AND AMAZING"
-KERI HERMAN

The Valhalla has been in the RMU lineup for many years and for good reason. The Valhalla has now been updated with an entirely new core profile and flex pattern to make the ski feel more balanced and have a more progressive flex tip to tail. Designed with Keri Herman and other industry professionals, they wanted a strong and versatile all mountain ski that could combat everything in sight. A rock solid ski that can be used in the terrain park or with professional backcountry guides, its tapered sidecut creates a nimble ski in tight terrain, while ramping up a strong progressive flex pattern for everyday skiing.

SPECS

– 97 MM WAIST WITH LOW RISE ROCKER TIP AND TAIL
– PRE-PREG FIBERGLASS LAYUP OFFERS LIGHTWEIGHT, TORSIONAL STIFFNESS AND A BALANCED FLEX.
– ABS TIP AND TAIL SPACERS
– POPLAR WOOD CORE
– BEECH WOOD BINDING MOUNTING PLATE
– 8.5 MM ABS SIDEWALLS
– ABS TAIL PROTECTOR
– OPTIMAL USE: 30% SOFT SNOW, 70% HARD SNOW
– HANDMADE IN SWEDEN

VALHALLA 107

UNISEX ALL MOUNTAIN WIDE SKI FOR BEGINNER TO INTERMEDIATE SKIER

"HERE'S A SKI DESIGNED NOT JUST FOR WOMEN, BUT ALSO BY WOMEN, INCLUDING OLYMPIC FREESKIER KERI HERMAN. THE UNION LOVED THIS SKI IN SOFT, OPEN STEEPS, WHERE IT FLOATS LIKE A DREAM AND CRUISES THROUGH MIXED SNOW CONDITIONS IN THE APRON"
-POWDER MAGAZINE

Keri Herman worked with 25 other women in our home of Summit County, CO to build the most versatile and playful ski for them. This ski has won multiple awards and regarded as one of our best skis to date. Now it has been updated with an entirely new core profile and flex pattern to make the ski feel more balanced and have a more progressive flex tip to tail. Ridden by men and women alike from the park to backcountry adventures, it's built for intermediate to advanced skiers that love all types of terrain. It has a partial twin tip with a pin sidecut, that gives it quick maneuverability and a sold feel with the rocker, camber, rocker profile.

FEATURES

– 107 MM WAIST WITH LOW RISE ROCKER TIP AND TAIL
– PRE-PREG FIBERGLASS LAYUP OFFERS LIGHTWEIGHT, TORSIONAL STIFFNESS AND A BALANCED FLEX.
– ABS TIP AND TAIL SPACERS

NEW!

APOSTLE 105

ALL MOUNTAIN WIDE SKI FOR INTERMEDIATE TO EXPERT SKIERS

REBORN FOR MODERN ALL-MOUNTAIN FREERIDING MEET THE RMU APOSTLE 105, COMPLETELY REIMAGINED FROM THE GROUND UP FOR THE 2026/2027 SEASON!

THE APOSTLE 105 HAS LONG BEEN ONE OF OUR MOST POPULAR AND ENDURING SKIS, WITH ITS LINEAGE DATING BACK TO THE FIRST VERSION THAT WON "BEST IN SHOW" AT ISPO IN 2011. FOR THE NEW SEASON, WE'VE TAKEN ITS BELOVED 105 MM WAIST WIDTH AND MELDED IT WITH A MODERN, BALANCED ALL-MOUNTAIN SHAPE AND A DEFINITIVE FREERIDE ATTITUDE.

WE'VE KEPT THE CORE OF WHAT MADE THIS SKI SO VERSATILE AND INTUITIVE—ITS LIGHTWEIGHT CONSTRUCTION AND QUICK MANEUVERABILITY—AND REFINED THE DESIGN TO BE MORE BALANCED THAN EVER. WHETHER YOU'RE RAILING CARVES ON CORDUROY OR SEARCHING FOR FRESH LINES, THE NEW APOSTLE 105 IS ENGINEERED TO BE YOUR ULTIMATE ONE-SKI QUIVER.

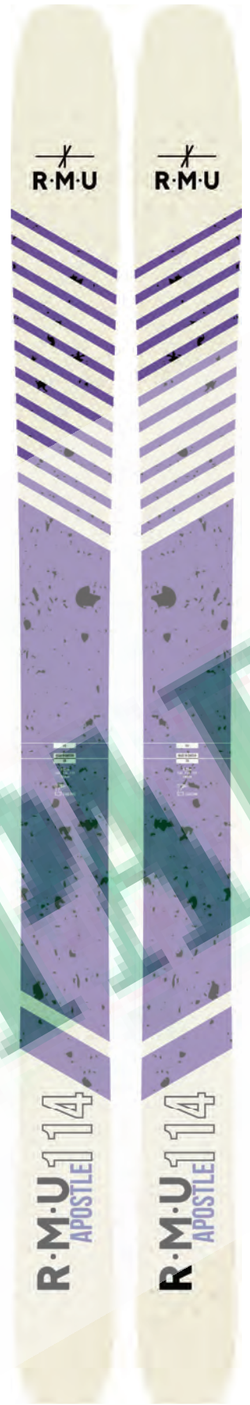

FEATURES

– 105 MM WAIST WITH LOW RISE ROCKER TIP AND TAIL
– PRE-PREG FIBERGLASS LAYUP OFFERS LIGHTWEIGHT, TORSIONAL STIFFNESS AND A BALANCED FLEX.
– ABS TIP AND TAIL SPACERS
– POPLAR WOOD CORE
– BEECH WOOD BINDING MOUNTING PLATE
– 8.5 MM ABS SIDEWALLS
– ABS TAIL PROTECTOR
– OPTIMAL USE: 50% SOFT SNOW, 50% HARD SNOW
– HANDMADE IN SWEDEN

APOSTLE 114

A VERSATILE BIG MOUNTAIN SKI FOR ADVANCED TO EXPERT LEVEL SKIERS

“THE APOSTLE 114 IS MY GO TO SKI FOR ANYTHING FROM BOTTOMLESS POW TO PILLOW STACKS, TO BIG MOUNTAIN LINES.” - ALEX ARMSTRONG.

DEVELOPED WITH RMU ATHLETE ALEX ARMSTRONG, WE WANTED TO CREATE A BIG MOUNTAIN FREERIDE SKI THAT COULD ALSO BE USED IN THE ALPINE. INSPIRED BY HER RACING ROOTS AND FREERIDE STYLE, THEY RUN STABLE AT HIGH SPEEDS AND MAINTAIN MANEUVERABILITY TO NAIL TECHNICAL LINES AND SLASH A GOOD OLD-FASHIONED POW TURN. WE COMPILED THE PLAYFUL AND STRONG CHARACTERISTICS OF THE APOSTLE IN AN AGGRESSIVE BIG MOUNTAIN FREE RIDE ATTITUDE BY USING AN EXTENDED SIDECUT FOR LONGER EFFECTIVE EDGE AND STABILITY AT SPEED. THIS YEAR WE UPDATED THE CORE AND FLEX PATTERN FOR A CREATE MORE BALANCED FEEL.

SPECS

– 114 MM WAIST WITH LOW RISE ROCKER TIP AND TAIL
– PRE-PREG FIBERGLASS LAYUP OFFERS LIGHTWEIGHT, TORSIONAL STIFFNESS AND A BALANCED FLEX.
– ABS TIP AND TAIL SPACERS

FRONTSIDE BIAS ALL MOUNTAIN CHARGER

THE APOSTLE 96 PRO IS THE NARROW WAISTED ALL MOUNTAIN CHARGER YOU'VE BEEN WAITING FOR FROM RMU. THIS SKI HAS A POPLAR WOOD CORE, CNC'D TITANAL STRINGERS THAT ARE TAPERED TO REDUCE WEIGHT, BUT MAINTAIN SUPREME DAMPNESS AND OPTIMISM STIFFNESS. THIS DEVELOPMENT HAS EMPHASIZED THE PLAYFUL NATURE OF OUR WOOD CONSTRUCTION, WHILE RETAINING THE SERIOUS CHARGING ATTITUDE OF A METAL SKI. THE EARLY RISE IN THE TIP IMPROVES FLOATATION AND ALLOWS THE SKI TO GET ON EDGE WITH EASE!

FEATURES

– 96 MM WAIST WITH LOW RISE ROCKER TIP AND TAIL
– PRE-PREG FIBERGLASS LAYUP OFFERS LIGHTWEIGHT, TORSIONAL STIFFNESS AND A BALANCED FLEX.
– TWO SHEETS OF TAPERED TITANAL ON TOP AND BOTTOM OF THE WOOD CORE FOR ADDED FOR TORSIONAL STIFFNESS AND CHARGEABILITY.
– ABS TIP AND TAIL SPACERS
– POPLAR WOOD CORE
– BEECH WOOD BINDING MOUNTING PLATE
– 8.5 MM ABS SIDEWALLS
– ABS TAIL PROTECTOR
– OPTIMAL USE: 30% SOFT SNOW, 70% HARD SNOW

APOSTLE 105 TI

ALL MOUNTAIN CHARGER FOR ADVANCED TO EXPERT LEVEL SKIERS

THE LEGENDARY APOSTLE 105 TI RETURNS FOR 26/27, COMPLETELY RE-ENGINEERED FROM THE GROUND UP TO MEET THE DEMANDS OF AGGRESSIVE CHARGING. WE'VE TAKEN THE AWARD-WINNING SHAPE AND MARRIED IT TO A TITANAL CORE CONSTRUCTION, TRANSFORMING THIS INTUITIVE ALL-MOUNTAIN SHAPE INTO A POWERHOUSE FREERIDE TOOL.

KEEPING THE CLASSIC 105 MM WAIST WIDTH, THIS NEW TITANAL VERSION RETAINS THE QUICK MANEUVERABILITY OF THE ORIGINAL BUT DELIVERS UNMATCHED STABILITY, EDGE HOLD, AND DAMPING WHEN THE TERRAIN GETS ROUGH OR THE SPEEDS GET HIGH. IT'S THE APOSTLE YOU LOVE, NOW ARMED WITH THE MUSCLE FOR YOUR BIGGEST DAYS.

THIS IS NOT JUST AN UPDATE; IT'S AN ELEVATION. THE APOSTLE 105 TI OFFERS A BALANCED, MODERN SHAPE WITH THE UNCOMPROMISING DAMPNESS REQUIRED FOR TRUE HIGH-SPEED FREERIDING.

FEATURES

– 105 MM WAIST WITH LOW RISE ROCKER TIP AND TAIL
– PRE-PREG FIBERGLASS LAYUP.
– 70MM SHEETS OF TITANAL ON TOP AND BOTTOM OF THE WOOD CORE FOR ADDED TORSIONAL STIFFNESS AND CHARGEABILITY.
– ABS TIP AND TAIL SPACERS
– POPLAR WOOD CORE
– BEECH WOOD BINDING MOUNTING PLATE
– 8.5 MM ABS SIDEWALLS
– ABS TAIL PROTECTOR
– OPTIMAL USE: 50% SOFT SNOW, 50% HARD SNOW
– HANDMADE IN SWEDEN

FREERIDE TOURING
CARBON PERFORMANCE

APOSTLE 96 C

DROP THE WEIGHT KEEP THE VERSATILITY

THE PERFECT BACKCOUNTRY SKI FOR THOSE WHO REQUIRE A LIGHTER, BUT STABLE SKI FOR TECHNICAL TERRAIN. THE PRE-PREG CARBON FIBER AND FIBERGLASS LAYUP IS COMBINED WITH A POPLAR/ PAULOWNIA WOOD CORE AND ABS SIDEWVALLS. THE RUBBER VDS MAINTAINS A SMOOTH FLEX, TORSIONAL FLEX AND PLAYFULNESS SIMILAR TO OUR WOOD CORE SKIS, BUT IN A LIGHTER CARBON PACKAGE. LOW RISE ROCKER IN THE TIP IMPROVES FLOATATION AND ALLOWS THE SKI TO GET ON EDGE WITH EASE AND AN ABS TAIL PROTECTOR THAT PROTECTS AND HAS AN INTEGRATED SKIN-CLIP TO KEEP YOUR SKINS SECURE WHILE ON THE CLIMB.

FEATURES

– 96 MM WAIST WITH LOW RISE ROCKER TIP AND TAIL
– PRE-PREG CARBON FIBER AND FIBERGLASS LAYUP OFFERS IMPROVED DAMPNESS, TORSIONAL
STIFFNESS AND BALANCED FLEX
– FULL WRAP VDS RUBBER FOR SUPERIOR DAMPENING
– POPLAR AND PAULOWNIA WOOD CORE
– BEECH WOOD BINDING MOUNTING PLATE
– 8.5 MM ABS SIDEWALLS
– ABS TAIL PROTECTOR WITH INTEGRATED SKIN-CLIP
– OPTIMAL USE: 30% SOFT SNOW, 70% HARD SNOW

FREERIDE CLUB

NEW!

APOSTLE 105 C

CARBON 105 = VERSATILITY IN ALL CONDITIONS

INTRODUCING THE RMU APOSTLE 105 CARBON FOR 26/27—THE ULTIMATE EXPRESSION OF LIGHTWEIGHT, HIGH-PERFORMANCE ALL-MOUNTAIN SKIING.

WE TOOK THE BELOVED, GROUND-UP REDESIGNED SHAPE OF THE APOSTLE 105 AND OPTIMIZED IT FOR MAXIMUM ENERGY RETURN AND MINIMUM WEIGHT BY INTEGRATING A CUTTING-EDGE CARBON LAYUP. THIS VERSION MAINTAINS THAT MODERN, FREERIDE-INFUSED SHAPE BUT SHEDS MASS, MAKING IT EXCEPTIONALLY QUICK EDGE-TO-EDGE AND UNBELIEVABLY FUN TO SWING AROUND, WHETHER YOU'RE SKINNING UPHILL OR NAVIGATING TIGHT TREES.

GET READY FOR AN INTUITIVE, ENERGETIC, AND SUPREMELY LIGHT RIDE. THE APOSTLE 105 CARBON IS BUILT FOR SKIERS WHO DEMAND AGILITY AND POP WITHOUT SACRIFICING THE CONFIDENCE OF A 105 MM PLATFORM.

FEATURES

– 105 MM WAIST WITH LOW RISE ROCKER TIP AND TAIL
– PRE-PREG CARBON FIBER AND FIBERGLASS LAYUP OFFERS IMPROVED DAMPNESS, TORSIONAL STIFFNESS AND BALANCED FLEX
– FULL WRAP VDS RUBBER FOR SUPERIOR DAMPENING

APOSTLE 114 C

THE 114 C IS A POWDER POWERHOUSE OF A TOURING SKI

THE APOSTLE 114 CARBON DROPS 500G. / 13% OF WEIGHT PER PAIR COMPARED TO THE WOOD CONSTRUCTION MODEL. THE INCORPORATION OF CARBON IMPROVES RESPONSIVENESS AND CONTROL UNDERFOOT, WHILE INCLUDING RUBBER DAMPENING IN THE TIP AND TAIL THAT SIGNIFICANTLY REDUCES CHATTER. THE SOFTER FLEX PATTERN ALLOWS FOR A PLAYFUL STYLE IN YOUR BACKCOUNTRY ADVENTURES AND IS MUCH LIGHTER ON THE UPHILL!

FEATURES

– 114 MM WAIST WITH LOW RISE ROCKER TIP AND TAIL
– PRE-PREG CARBON FIBER AND FIBERGLASS LAYUP OFFERS IMPROVED DAMPNESS, TORSIONAL STIFFNESS AND BALANCED FLEX
– FULL WRAP VDS RUBBER FOR SUPERIOR DAMPENING
– POPLAR AND PAULOWNIA WOOD CORE
