Sticker Pain Care & Improvement of Athletic Performance

Re-So Beam® Sticker Type

- To adjust the body before workout
- To loosen up troubled area (shoulder, back, leg, joint, stomach, etc...)
- To heal muscle fatigue
- To heal stiffness of head, neck or shoulder from long deskwork

Special manufacturing method on the adhesive surface (Re-So Technology)

Re-So Technology TOTAL 36 PROCESSES

have been applied on the adhesive area.

The sticker helps you to refresh your body from inside and improves the biological balance of your body to make you feel better.

4 Main Features

Heal and Revitalize the applied area and the peripherals

Re-use lactic acid continuously as an energy source

Adjust the mitochondrial activity reaction

Inducing ATP production, the source of vital energy

※ATP is 'the only source of vital energy' in the body of living creature.

Special technology is used to enhance the quality of Enzymes and Minerals

Apply the reaction of the biologically active substances (necessary for vital force promotion) to active status

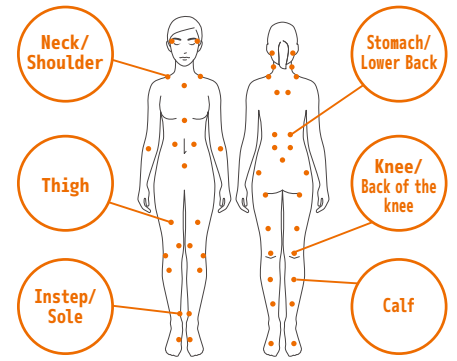

Healthier Body from Inside!

Our original technology to purify and remove the obstacles

For Your Exercise! For Your Daily Maintenance of Health!

Main Features

- By putting it on before workout, it will activate your body cells
- Using self-adhesive with less skin stimulation
- Moderately elastic urethane nonwoven fabric with air permeability
- It will not peel off easily by sweat or water
- It will adjust your body after workout

Two tests were conducted on the human body and cells, and mitochondrial metabolic activity was confirmed.

1. Bicycle ergometer, multi-step incremental load exercise test (2019): Physical Education University, 15 males.
2. MTT Assay: Human skin fibroblasts (2019), human neuroblasts (2020).

[Caution]

- Please do not use on the irritated area of the skin.
- Please handle with care when using for children.

We have received many messages of surprise.

These are the users' personal comments and do not represent the official effects of the product.

It's not only for pain, right?

I have aged eyes. When I put the chips on the back of my ear lobes, I can read newspaper and I can watch TV clearly. (Mr.H)

The rumor was true.

I heard the rumor that it cures menstrual pain, so I tried. I put it below my navel. Then my belly got warmer in 20-30 minutes and the pain passed away. (Ms.N)

Tension from my pulled muscle disappeared!

I didn't take it seriously, but I could feel the effect right after I put it. So surprising! (Mr.S)

Muscle cramp in the thigh did not happen at all!

Muscle pain is slighter on the area I put Re-So Beam. So surprising! (Mr.T)

OK all the time of the race.

I had a goose's foot, but with the Re-So Beam, I felt no pain. (Mr.I)

My tennis elbow was very painful...

But the pain went away in about 1 hour. How surprising! (Mr.M)

Sample my grandchild got for me at a sports festival.

The sticker is so small! I didn't believe at first, but my terrible knee pain has got much better. I can enjoy walking now. (Ms.N)
